Water-resistant

Foldable & Portable

BLUETTI PV200 SOLAR PANEL

Durable, versatile solar panels with
universal compatibility

BLUETTI PV200 SOLAR PANEL

POWER HAS NO BOUNDARIES

Durable and Stable

With the durable ETFE surface, PV200 gets a longer service life and, more importantly, 95% light transmittance to harness solar energy even in low-light conditions. Do not place it in rain or other liquids for a long time.

Flexible and Foldable

The portable solar panel captures more solar energy than lying flat by adjusting its kickstands to a perfect angle ($45^{\circ} \pm 10^{\circ}$). With a folded size of 590mm*630mm, you're able to store it in your home and RV easily.

Efficient and Excellent

Thanks to monocrystalline solar cells, BLUETTI PV200 has a higher conversion efficiency of up to 23.4%, allowing you to extract more power from the sun.

POWER GOES WHEREVER YOU ARE

Compatible with all BLUETTI Premium power stations and most solar generators.

ENOUGH TO POWER YOUR EVERYDAY ESSENTIALS

Apply in wide range applications with BLUETTI power stations- from outdoor adventures and off-grid living to charging electrical tools at construction sites.

Specifications

Solar Cell	Monocrystalline
Cell Efficiency	23.4%
Current at Max Power (Imp)	9.7A
Open Circuit Voltage (Voc)	26.1V
Operating Temperature	(-10°C to +65°C)
Weight	7.3kg (16.1lbs)
Dimensions	23.2in*24.8in (Folded)
