HSWMBV4060

Vertical wall mounting bracket- 1pcs

Vertical Wall-Mounted Bracket Installation Guide

Preparation Before Installation

Safety First: Ensure the lamp's power is turned off and disconnected before starting the installation.

Tools Required:
8mm drill bit, M8 hex nut wrench, impact drill.

Step-by-Step Installation

Step 1: Read through all instructions to understand the installation process.
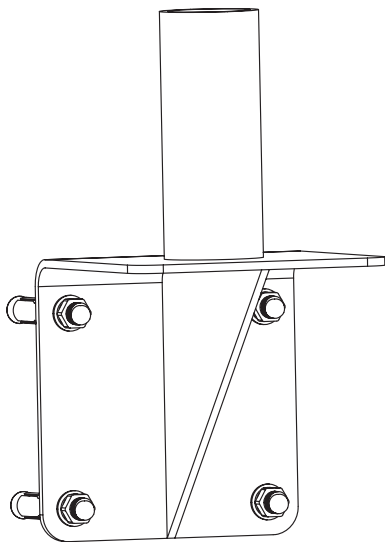

Step 2: Confirm all required tools and materials are ready for use.

Step 3: Using the 8mm drill bit and impact drill, drill four holes into the wall, aligned with the holes on the vertical wall-mounted bracket.
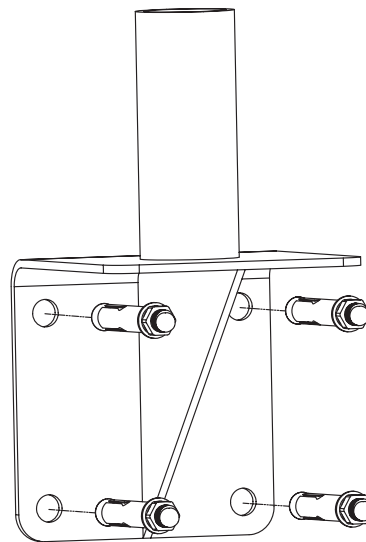

Step 4: Fix the horizontal bracket to the wall using M8 expansion bolts.

Step 5: Tighten the expansion bolts securely with the M8 hex nut wrench to complete the installation.

Step 4

Step 5
