Hesperus™ Series

SWITCH INTERFACES AND POWERPOINTS

Living **Enhanced**

When technology makes life easier and design makes it more enjoyable.
We engineer devices that make simpler gestures out of everyday life.

CONTENTS

Inspirational **design**

We aim to increase comfort, reduce energy consumption, raise the long-term value of a property as well as manage the safety of users. KASTA Technologies has created a series of products that embody the essence of design, attention to detail, cutting-edge technology and innovation.

WINNER

2021
Smart Lighting / IoT Award
Lighting Council Australia

Access

Add a Cloud Connect Gateway for **remote access**
and **voice control** via smart speakers

Each button on the Hesperus™ remote smart switches can activate a single device, group, pre-set scene or timer (all user-programmeable through the KASTA app). Your Hesperus™ interface will send a secure wireless signal to either your KASTA smart surface sockets, or KASTA smart modules to seamlessly connect and activate the allocated devices and circuits.

KASTA app

Living Enhanced starts at your fingertips - just one touch can take control of your whole home ecosystem.

Compatible on both iOS and Android platforms across all smart phones and tablet devices.

Designed to work seamlessly throughout your home environment, connecting to your smart devices and creating limitless possibilities to personalise and control your space in one simple, intuitive app.

Control and personalise your whole home: opening the garage door, turning on and dimming lights, opening curtains, controlling TV power, switching on irrigiation, controlling air movement and temperature, and much more.

Scene control

Create a custom scene using the KASTA app to programme multiple KASTA devices to work in harmony together.

SLEEP SCENE
> Bedroom downlights to OFF
> Curtains and blinds to CLOSE
Activate your custom scene by pressing a Hesperus™ interface switch button, via the KASTA app, or via voice control.
