MATX0312-PS-G4	295*1195	25W/28W/ 32W/36W	4000K 4500K 5000K	2670lm (Min-Lumen) 3960lm (Max-Lumen)						
MATX0612-48-G4	595*1195	48W	4000K 4500K 5000K	5600lm (Min-Lumen) 5800lm (Max-Lumen)						

⚠ WARNING

- The luminaire must be installed by a licensed/qualified electrician in accordance with local wiring and relevant Australia standard.
- Ensure to disconnect mains supply before conducting any installation and maintance the luminaire.
- Ensure input voltage conforms to the voltage range of product.
- Ensure all the wiring is correct and secured before connecting mains supply to the luminaire.
- Warranty is void if product is not installed according to the instructions.
- The light source contained in this luminaire shall only be replaced by the manufacturer or his service agent or a similar qualified person.
Note: Product technical information and specification may change over time without prior notice. For latest information, please contact our customer service or visit our website www.haneco.com.au
Installation Instructions

- Power off before installation.
- Ensure that the installed object can bear the lamp weight. Open the groove on the ceiling according to corresponding size. Then install the lamp into the clamping groove on the ceiling.
- Then connect wire attached to the lamp onto the corresponding power cord and carry out insulation sealing at the joint.

1. Turn off power at the source.

2. Remove the appropriate size plasterboard.

3. Adjust the color temperature to the desired color temperature through the dip switch.
