PANNELLO^{G2}

Premium LED Troffer

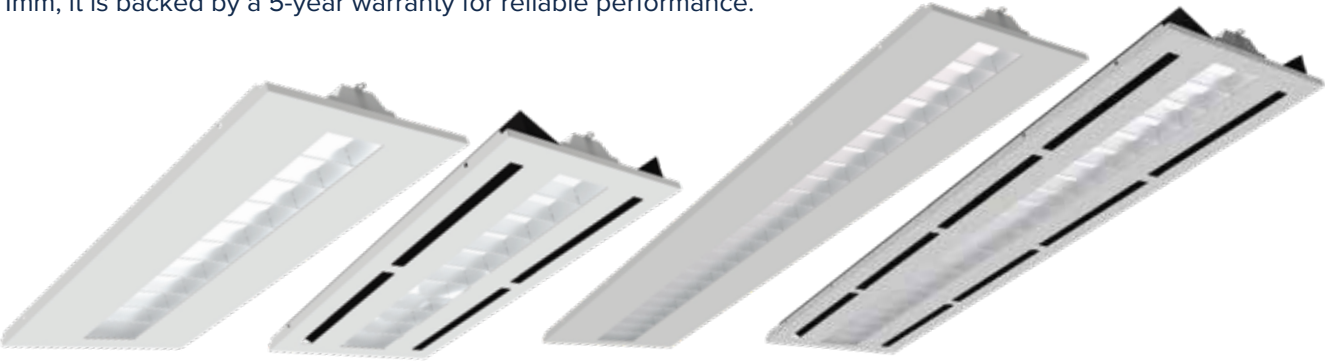

PANNELLO-0306-AR-HDALI PANNELLO-0306-HDALI PANNELLO-0312-AR-HDALI PANNELLO-0312-HDALI

PANNELLO^{G2} is a premium LED troffer offering 4000K and four selectable power options. It features flicker-free performance, low glare (UGR <19), and high colour rendering (CRI >90). The panel is constructed with a white powder-coated aluminium frame and is designed for seamless installation in T-bar grid suspension ceilings.

Suitable for your COMMERCIAL SPACES

PANNELLO^{G2} is ideal for a wide range of commercial applications, including offices, retail environments, education, and healthcare spaces. Rated IP40 for protection against solid objects greater than 1mm, it is backed by a 5-year warranty for reliable performance.

✓ Features

- IP40 rating
- Low profile design
- Versatile mounting options
- Various accessories available
- Low Glare Fitting
- Optional DALI converter accessory available

✓ Benefits

- Ideal for office applications
- Suitable for very narrow ceiling spaces
- Expand the lighting possibilities with different mounting configurations
- Tailor the luminaire to meet the application requirements

Premium LED Troffer

✓ GREENSTAR

This panel light is Green Star compliant, supporting sustainable building projects through energy efficiency, high-quality lighting performance, and improved indoor environmental outcomes.

✓ VERSATILITY

Suitable for a wide range of applications

APPLICATIONS

Offices / Showrooms / Boardroom / Meeting Rooms / Function Areas / Retail Spaces

DALI DIMMING

DALI dimmable technology provides precise and flexible lighting control, allowing users to adjust brightness levels to suit different environments and requirements. It improves energy efficiency, enhances user comfort, and supports smart lighting solutions with smooth dimming performance, making it ideal for commercial, office, and modern sustainable building applications.

HIGHER COLOUR RENDERING INDEX

Pannello G2 delivers superior light quality with a **CRI >90**, ensuring colours appear more natural, vibrant, and accurate compared to standard lighting solutions. High CRI lighting creates a more comfortable visual environment, enhances product presentation, and is ideal for spaces where true colour perception and user experience are important.
