

SENTURA™ SERIES

PIR AND PE CELL SENSORS

ENERGY SAVING

SECURITY

KASTA's Sentura series of sensors improve security, energy efficiency, and convenience by automatically detecting movement and controlling lighting.

They include technologies such as Passive Infrared (PIR), Photo Electric (PE) to suit different environments.

KASTA offers a range of standalone for both residential and commercial use, including the sensor mechanism range as a leading option.

Simple installation

- ✓ Suitable for retro-fitting or new builds
- ✓ Common industry standard footprints for ease of retro fit
- ✓ Multiple knock-outs for flexible cable entry points
