VEGA 200W LED Asymmetric Flood

**Asymmetric 100° × 66° lens tech
for better light distribution**

VEGA lens upgrade

The latest model of the popular VEGA floodlight series has had its lens technology upgraded to asymmetric. The 100° x 66° asymmetrical light distribution is much better suited to car parks and recreational tennis courts.

Asymmetric lens

The smart optics of the new clear asymmetric PMMA lens for the VEGA 200W is a leap forward that allows a more concentrated light distribution that is easier to aim from an elevated angle. The intensity distribution of this 'oval of light' allows you to spread the right level of illumination over a more precisely targeted area, which can mean that fewer lights are needed and certainly improves the quality of light for car parks and some sports.

Super bright floodlight

Like its symmetrical 200W brother, the asymmetric emits 24,200 lumens, is made from enduring marine grade aluminium to suit beachside applications and can take an impact with an IK09 rating. Naturally, it's rated to take the weather at IP65. Various accessories are available for mounting and added protection.

Less spillage

The VEGA 200W Asymmetric is a better directed beam that has the added advantage of reducing light spillage and glare with better forward throw to the beam and less back spill.

High performance LED Floodlight

| PRODUCT CODE | WATT | LUMEN | lm/W | CCT | CRI | PF | BEAM ANGLE |
|---------------|------|---------|-------|-------|-----|-----|------------|
| VEGA200W-ASYM | 200W | 24200lm | 121lm | 5000K | >80 | 0.9 | 100° × 66° |

Advanced mini-lens design for 100° wide x 66° light distribution

Silicone housing gasket and metal cable entry gland for IP65 rating

Heavy duty IK09 impact rating with a robust Aluminium body

Angled bracket for fast fixing

Haneco VEGA Accessories

A range of accessories to mount and protect the light

VEGA Glare Shield

120mm black powdercoated steel glare shield

VEGA Wire Guard

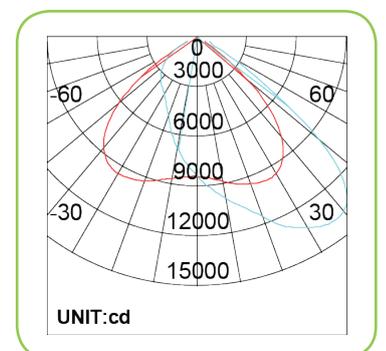

Powdercoated steel wire guard

VEGA Pole Mount

Black powdercoated steel side mount bracket

VEGA Tenon Mount

Powdercoated black steel top mount bracket
