Ingress Protection Rating

LiFePO4
Battery Reliability

RCM
Australian Standard Compliance

4yr
Warranty

A reliable path to building safety.

LUME is a sleek, emergency luminaire suitable for a large variety of applications, due to its recessed and surface mounting options. Using reliable lithium iron phosphate (LiFePO4) battery technology, this state-of-the-art product ensures low maintenance and energy efficiency. Compliant to AS/NZS 2293.3, offering D40/D63 emergency classification.

Features

- D40 or D63 emergency classification
- Simple test button
- IC-4 Rating allows covering with insulation
- LiFePO4 battery compliant with AS2293.3
- More than 2 hours discharge time
- Available in surface mount and black or white finish

Benefits

- Optimised product spacings
- Easy maintenance
- Simple and quick installation
- Peace of mind for end user
- Ensured and guaranteed safety
- Suitable for a wide range of applications

ESODO BOX

Emergency Exit Signs

Conventional and reliable.

ESODO BOX is an LED emergency EXIT sign presented in a conventional and discrete box design. With the installer in mind, it allows for easy and quick surface installation.

Features

- Simple installation
- Easy accessible manual test button
- 24m viewing distance
- High efficiency LED back-lit sign
- LiFePO4 battery compliant with AS2293.3
- Replaceable decals supplied
- Also available in black

Benefits

- Saving installation time
- Simple maintenance
- Ensured safety throughout the building
- Homogeneously lit sign
- Peace of mind for the end user
- The correct sign for every application
- Suitable for low illuminance applications
