

GALAXY LED Panels

Ultra thin LED panels in a full range of sizes and mounting options.

Sleek & out of the way

This super sleek rectangle of light is the most unobtrusive and modern way of lighting offices and corridors.

Evenly lit

The GALAXY panels are clean and evenly lit with their 120° distribution ensuring good light and low-shadow work environments.

Government approved efficiency

Models in the GALAXY range are so efficient they have been approved for use in the government energy saving schemes **REES**, **VEET** and **IPART**.

Options on request

Haneco can provide several dimming options on request – TRIAC, DALI & 1-10V dimming. Also available on request are flicker free panels, emergency batteries and even cyanosis compliant panels for medical applications.

Range of sizes

GALAXY comes in 5 standard sizes from 300mm x 300mm through to 600mm x 1200mm.

Various mounting options

The GALAXY panels are easily installed in standard suspended ceiling grids. We also provide other means of mounting including surface mount frames, plaster recess frames and a suspension kit.

Haneco GALAXY Accessories

GALAXY accessories allow you to mount these panels anywhere

One piece surface mount frame

One piece, bevelled edge, with easy access for wiring and able to be fixed to any surface.

Four piece surface mount frame

A straight edge frame in four pieces for assembly on site.

Plaster recess frame

A one piece frame that fits practically flush for cutting into plaster ceilings.

Vented frame

A vented frame that fits suspended ceiling grids and can be installed as a recess frame in plaster cutouts.

Suspension kit

This kit allows you to hang a frame for the panel from high ceilings or for task lighting.
