

# PARALLAX LED Strip Profiles

## Ultramodern & subtle lighting solutions

### Perfect profile

Haneco's PARALLAX profiles and diffusers are designed so that FLEXION LED strip lights fit perfectly into them. The mounting profiles give a modern linear look.

### Flexible practical illumination

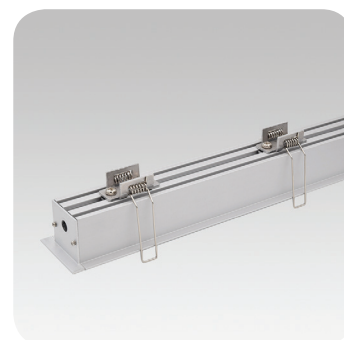

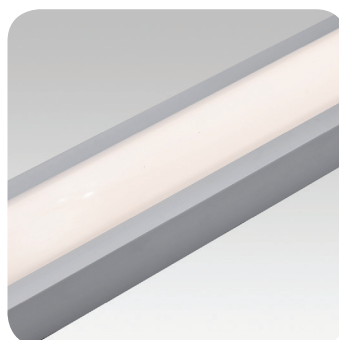

The PARALLAX mounting profiles allow you to light or highlight whatever and wherever you want, inside and out.

### Choice of fixing

PARALLAX profiles can be surface mounted, fitted into corners, clipped into ceilings, recessed or suspended on wires.

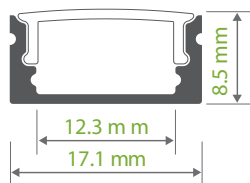

### Complete package

All PARALLAX profiles are made from aluminium with polycarbonate diffusers and come with end caps, joiners and mounting accessories.
